Building & Landmark

Building and landmark signs are always out front communicating who you are and where you are.

They are a great investment for those who have the opportunity to have them installed.

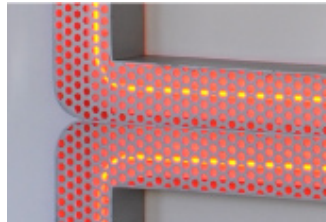

As the examples indicate, we at Major Graphics have been responsible for constructing and installing many of Melbourne's landmark signs for major corporations.

Feature Lighting

High impact, entertaining, bright, colourful, eye catching, subdued, serious, solid, steady and aesthetically pleasing environments can all be created with the correct use of light.

With imagination and innovation feature lighting can be used directly or indirectly to artistically complement an environment or create an effect. Speak with Major Graphics for architectural and design options utilising Cold cathode, Neon, LED or fluorescent light.

Large Format Graphics

Enhance or build your environment with large format graphics. Vinyl glazing and wall graphics using digital technology can create outstanding effects bringing to life images and adding colour.

- custom design & fabrication ■ neon, cold cathode & L.E.D. feature lighting ■ illuminated signs
- corporate identification ■ directional & reception signs ■ architectural signs ■ pylon & gaming signs ■ urban art
- large format graphics ■ 3D acrylic & metal fabrication ■ computer cut lettering ■ conversions, service & maintenance

Visual Solutions

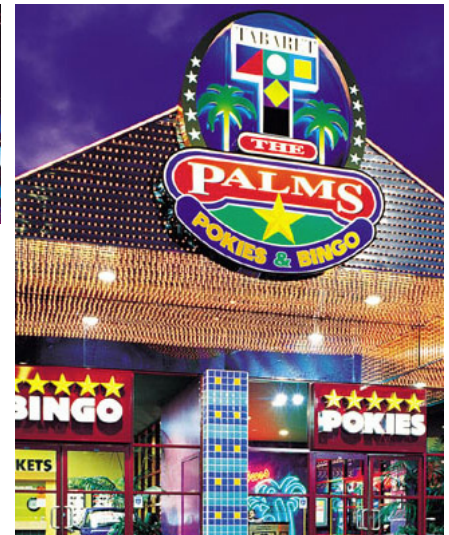

Corporate

First Impressions are lasting. Why not ensure you are remembered by utilising Major Graphics to create and install your corporate, logo or reception branding displays? We have a vast array of materials and finishes which we can use to create a stylish point of difference.

Gaming & Entertainment

Talk to Major graphics about our vast experience for internal and external gaming and entertainment signage or feature lighting. Each creation can be unique and dramatically different.

Retail

If you want to attract, brand and create interest then why not talk to Major Graphics? We can help you create a visual experience which will encourage customers to stop, come inside and do business with you. Investment in signs and displays can certainly make a difference. Let us tailor an environment and customer experience to suite your individual needs.

- custom design & fabrication ■ neon, cold cathode & L.E.D. feature lighting ■ illuminated signs

Directory

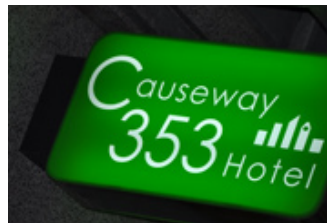

Indoors or outdoors Major Graphics can tailor all types of directory signs to your needs. Easily read directory signs made from durable materials which are easy to upgrade, maintain and clean are all important features.

Illuminated

Stand out Be visible Be different.

Illuminated signs are another essential marketing tool which you can use; not only making your sign visible at night, but attractive effects like shadows can also be created. Face lit, back lit, edge lit or halo are all choices as is whether you choose neon, LED or fluorescent.

Urban Art

Uniquely creative and artistic; urban art can create a positive reaction. It can also be site specific and custom designed for architectural and landscape environments.

At Major Graphics we offer our construction skills utilising different materials and finishes together with our lighting and project management experience.
